SKILLS

HTML | CSS | React | Node | JavaScript | Python | Ruby On Rails | MYSQL

PROJECTS

Lambda School Project Showcase

HTML | React | Node | MongoDB | Express

- Full Stack Web Application to display students projects that are currently enrolled in Lambda School.
- This was a group capstone project that is now being used by employers
- GitHub: <https://github.com/LSPortfolio>

Candy Crush Saga

Angular | TypeScript | Phaser.io | Gulp

- Candy Crush game made with Phaser.io engine utilizing TypeScript and Angular
- Github: <https://github.com/ericblancas23/phaser-candycrush>

Universal E-Commerce

Ruby On Rails | MYSQL

- Developed a basic structure boilerplate for companies looking to build an ecommerce webapp, used in different upwork clients.
- GitHub: <https://github.com/ericblancas23/ruby-on-rails-commerce>

OPEN SOURCE

Gatsby.JS

2017 - Ongoing

React Native | FireBase API | Expo

- Contributed to the open source project Gatsby that lets users generate a web app from the command line. Project is specialized in React, while helping develop their static sites and commands.
- GitHub: <https://github.com/ericblancas23/gatsby>

EXPERIENCE

Lambda School

Remote

Technical Mentor for Computer Science

August 2017 - February 2018, August, 2018 - Present

- Provided one-on-one instructional feedback to students in the Computer Science portion of their program.
- Debugged student code for projects written in C, MYSQL, Python, React, and Django.
